

World Map

Of Exhibition Venues

2022 Edition
January 2022

Thank You

UFI would like to thank the following supporting partners, who helped collect the data for this research:

Global Reports

Analysing the global exhibition industry with global comparisons.

Global Barometer – Bi-annual report on industry developments.

World Map of Venues – Report on trends in venue space and project developments globally.

Economic Impact Study – Report on the value of exhibitions globally and regionally.

United Nations Sustainable Development Goals – Report on the economic, social & environmental impacts of a number of exhibition industry projects.

Regional Reports

Regular market overviews on UFI's chapter regions.

Euro Fair Statistics – Annual list of certified data for Europe by country.

The Trade Fair Industry in Asia – Annual analysis of market developments for Asia & Pacific by country.

The Exhibition Industry in MEA – Overview of the exhibition market in the MEA region.

The Exhibition Industry in Latin America – The first comprehensive overview by UFI of the exhibition industry Latin America.

Topical Reports

Focused reports on challenges and developments within the exhibition industry.

COVID Related Research – Data, reports, and standards covering the exhibitions industry.

Global Visitor Insights & Global Exhibitor Insights – Data driven research reports on visitor feedback and exhibitor expectations.

Best Practices Compendiums – Case studies of successful industry developments.

Special Industry Topics – A wide ranging selection of bespoke reports into specific industry topics.

UFI Research Patron: **Freeman**

Freeman is the world's leading brand experience company. They help their clients design, plan, and deliver immersive experiences for their most important audiences. Through comprehensive solutions including strategy, creative, logistics, digital solutions, and event technology, Freeman helps increase engagement and drive business results. What makes them different is their collaborative culture, intuitive knowledge, global perspective, and personalized approach.

Venue capacity is an important element for the exhibition industry and the resulting economic development it generates. With the “World Map of Exhibition Venues”, UFI regularly produces a global census of all exhibition venues with a minimum of 5,000 sqm of gross indoor exhibition space.

Venue definition (for the purpose of this survey): any public assembly premises with a minimum of 5,000 square meters (sqm) of indoor Exhibition Space and that hold various types of exhibitions, trade fairs or consumer/public shows on a regular basis. The premises may be purpose-built exhibition centre space or other premises including Exhibition Space (e.g. hotels, arenas, sport venues, and amusement fair grounds).

Exhibition Space definition: the amount of gross exhibition space in the Venue regularly marketed and rented/licensed/used for exhibitions, trade fairs or consumer/public shows.

“Top” in the context of this report is considered as the largest venues (or the countries/regions with the most Exhibition Space) and bears no relation to the quality of that space.

The data collection was conducted through several channels including the supporting partners and companies mentioned on the previous page and also direct information from venues.

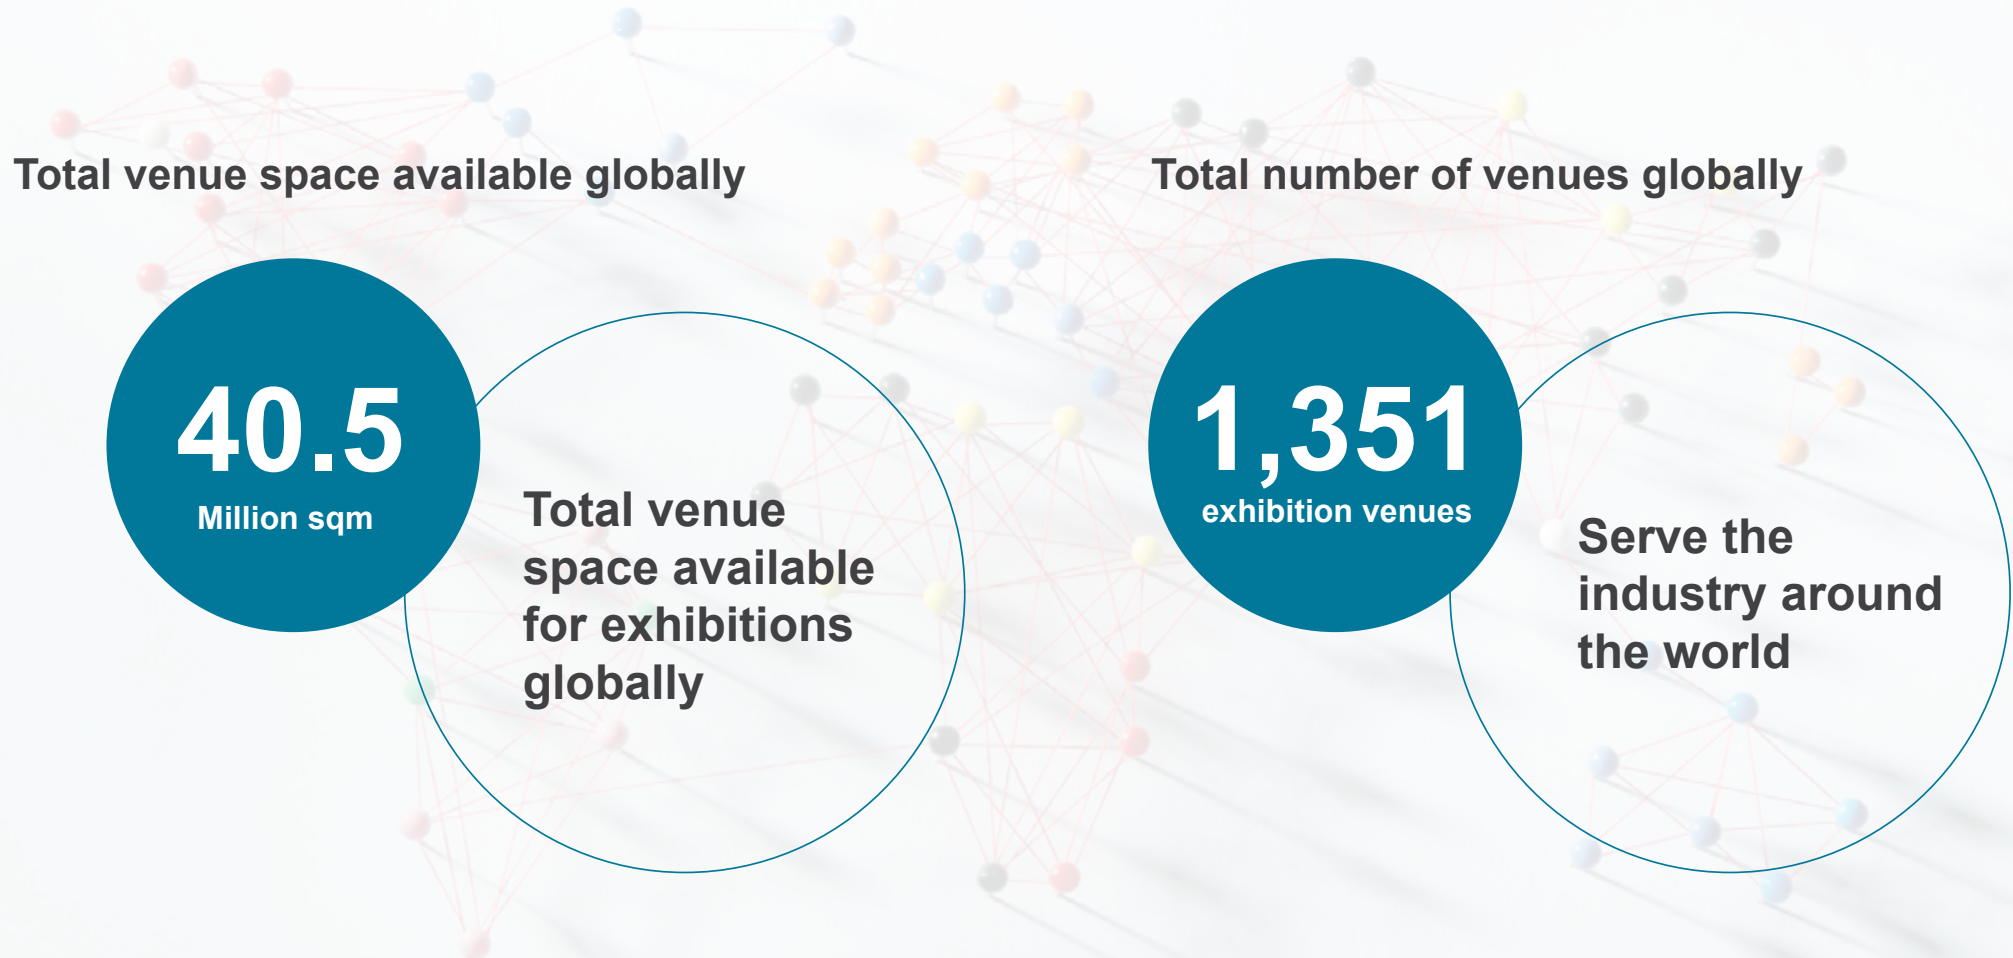

Important remark: Compared with the previous version produced by UFI in 2017, this new version includes significant updates in several key markets where additional venues were identified. This applies to China (Asia - Pacific), Mexico (North America) and countries in Central and South America.

The results are considered reliable. They cannot however be considered as fully accurate or complete and UFI cannot be held responsible for errors or any consequences arising from the use of this information.

In line with UFI’s mission to provide vital data to the entire industry, this report is freely available at www.ufi.org/research.

For any information on this report or other UFI’s Research activities, please contact research@ufi.org

The total indoor exhibition space worldwide reaches 40.5 million sqm for the year 2022 and 1,351 venues were identified.

Main Results

Regional results

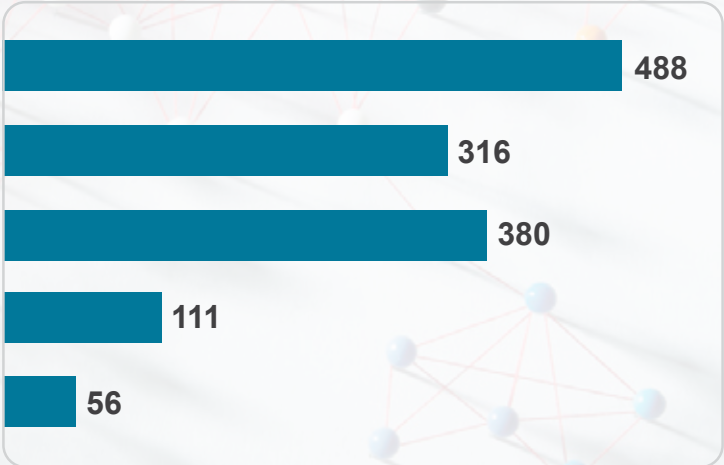

Europe is home to the most exhibition space globally (15.7 million sqm), and Asia - Pacific offers more exhibition venue space than North America (13.0 and 8.3 million sqm respectively). Regarding the number of venues, Europe also is home to the highest number of venues (488), followed by North America (380) and Asia - Pacific (316) respectively.

Venues and indoor exhibition space

Capacity
in million sqm (global share)

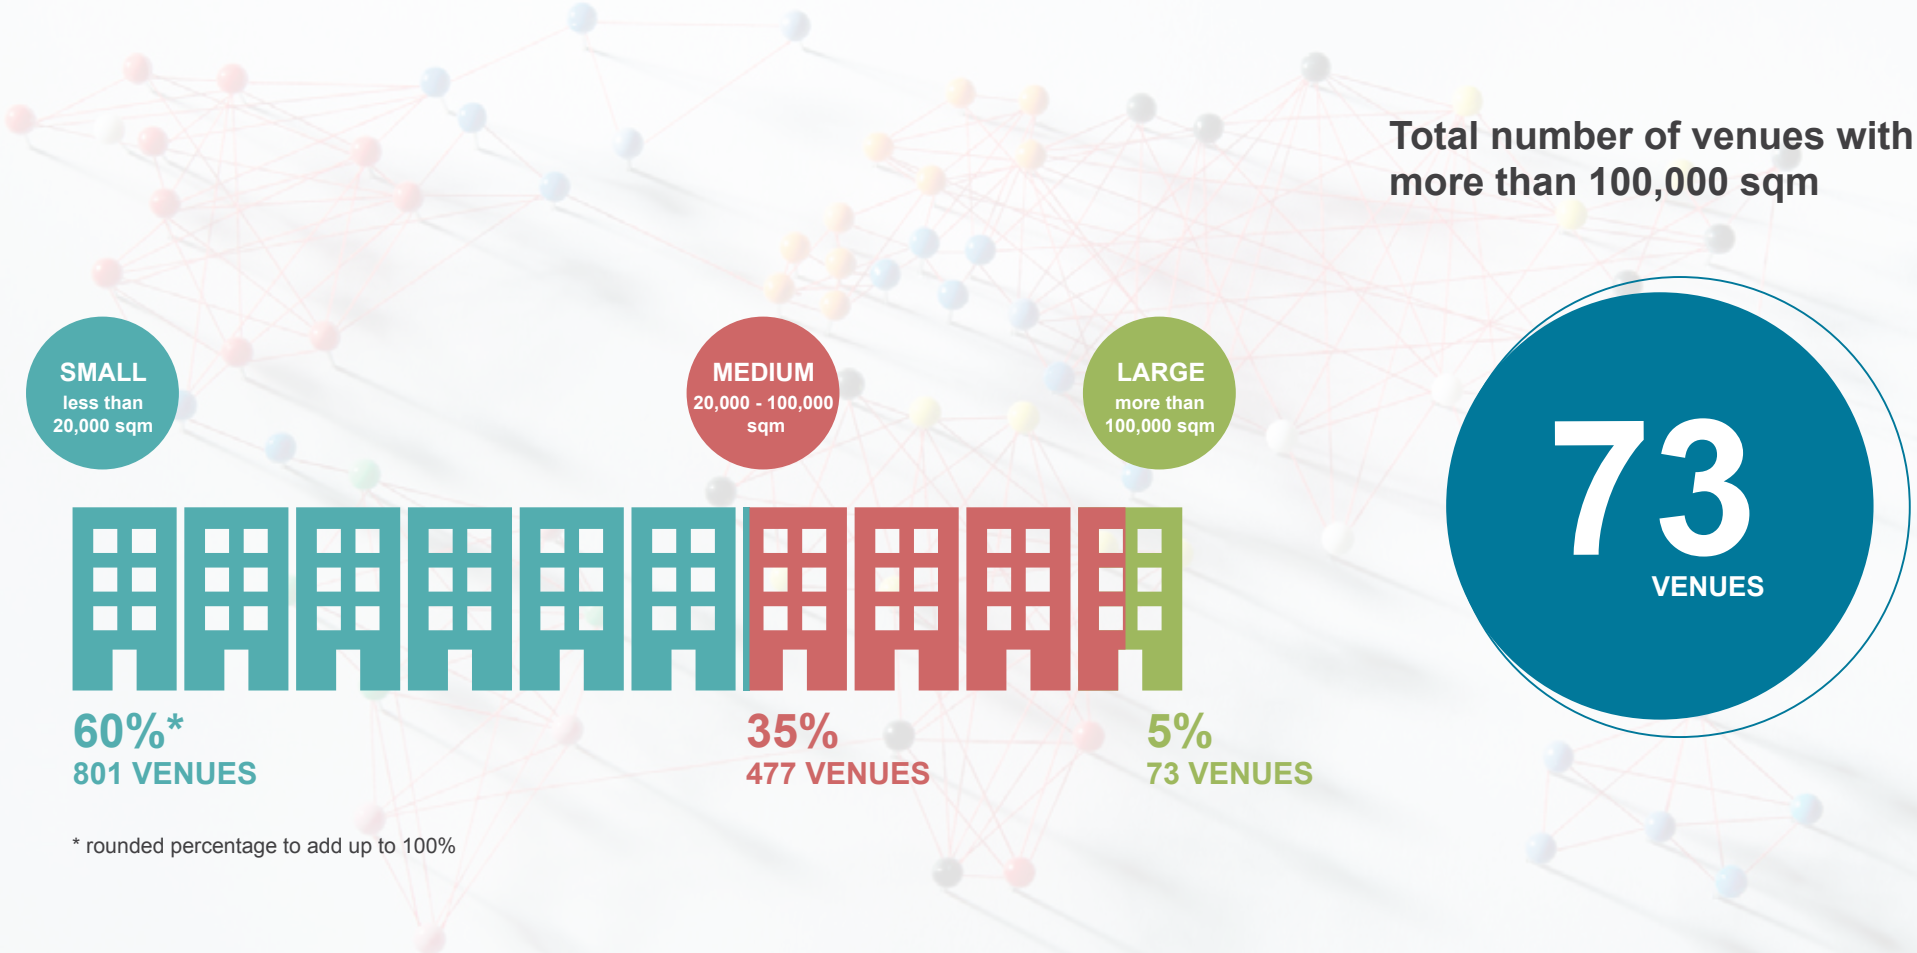

Number of venues

Main Results

Indoor exhibition space: size segmentation

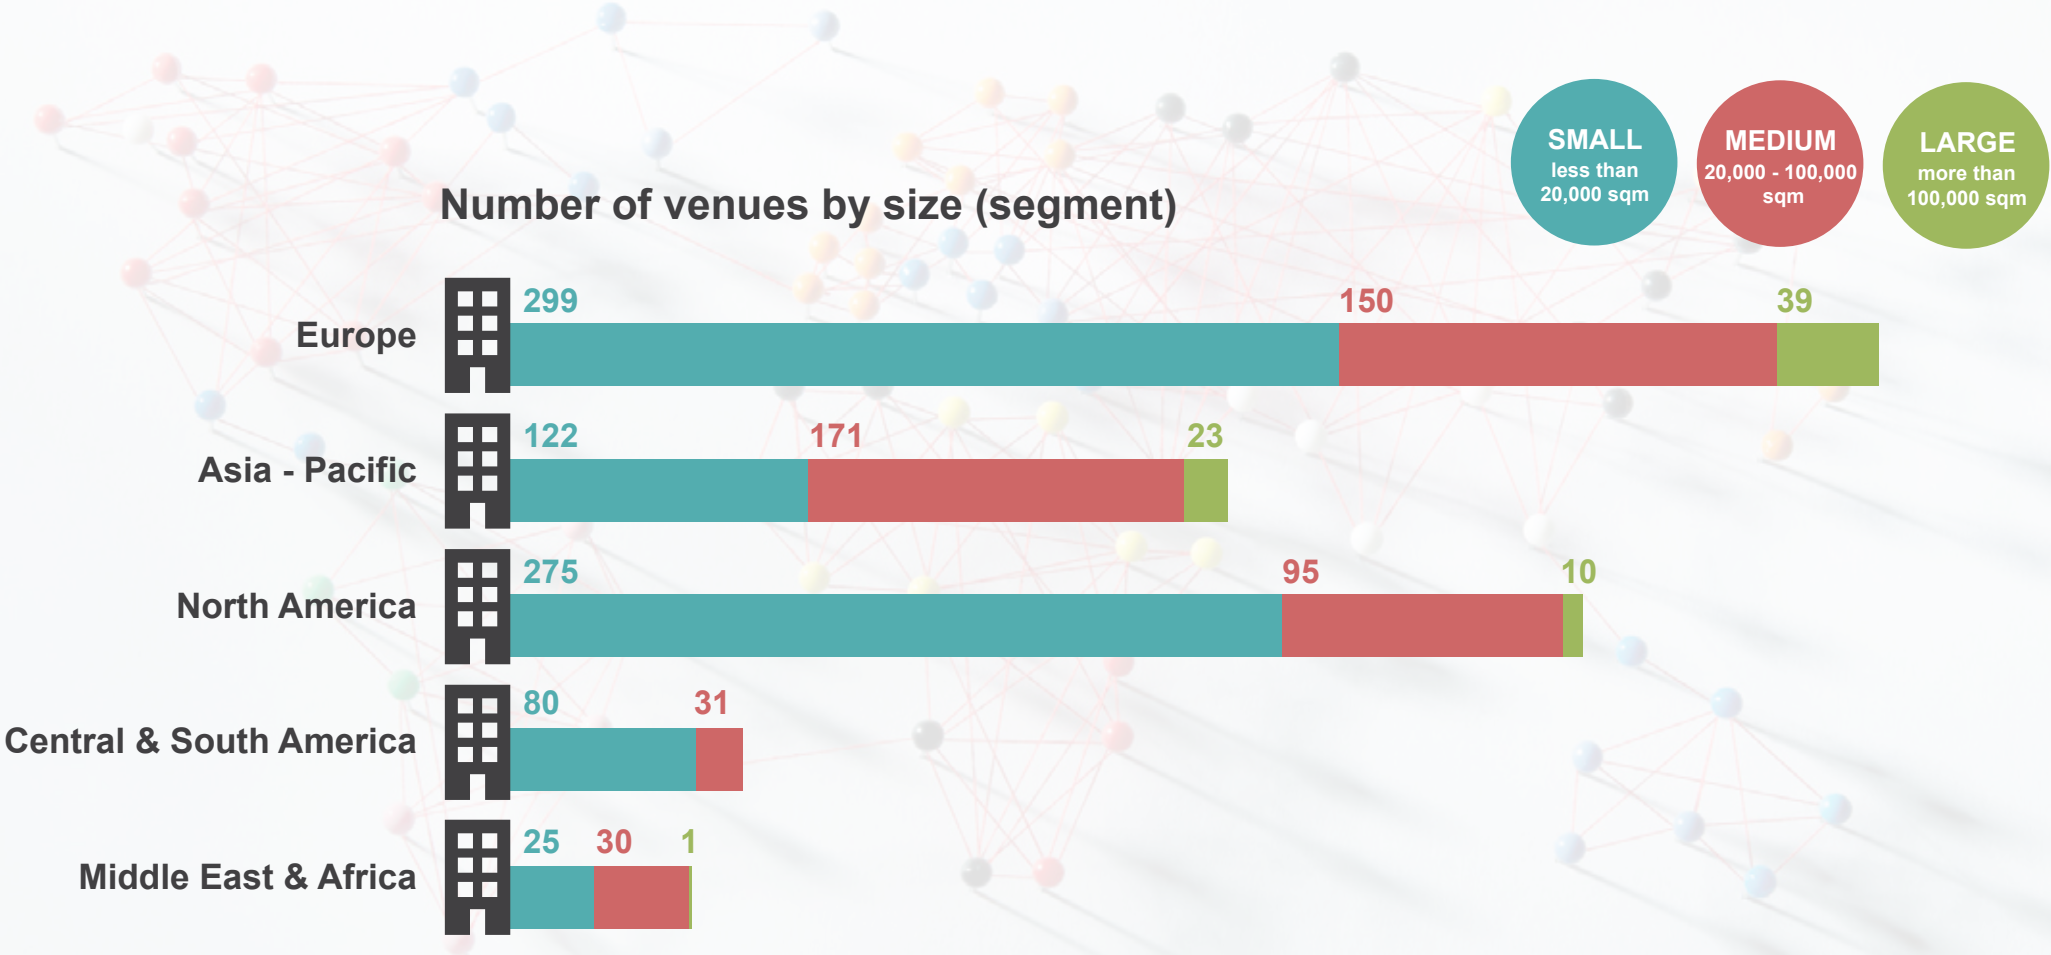

Globally, 60% of the venues have an indoor capacity between 5,000 and 20,000 sqm. One third (35%) of all venues globally belong to the medium-size segment, offering between 20,000 and 100,000 sqm. 73 venues have more than 100,000 sqm.

Main Results

Indoor exhibition space: size segmentation

Europe is home to most of the large venues.

Main Results

Indoor exhibition space: average size

The average size of Asia - Pacific venues is bigger than in any other region.

(*) including overseas territories (**) European + Asian parts

Conclusion

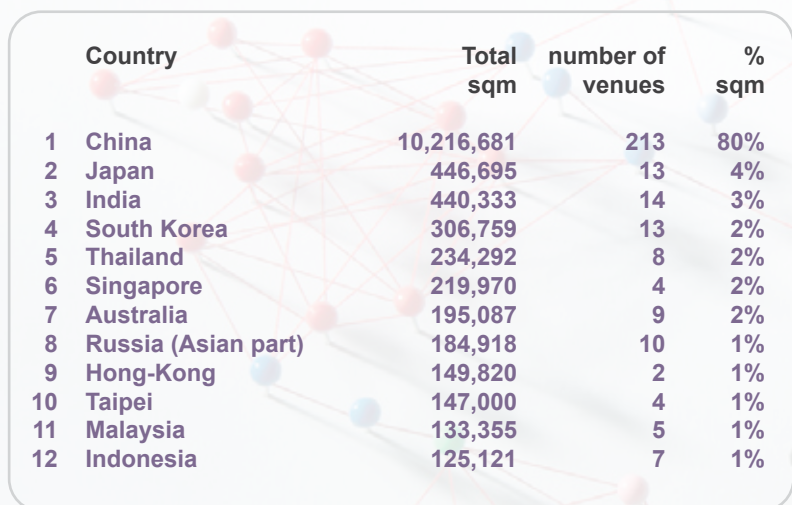

Early 2022, there are 1,351 exhibition venues with a minimum of 5,000 sqm of gross exhibition space around the world and the total global venue space is 40.5 million sqm. The number of large venues offering more than 100,000 sqm of space is 73.

Due to a surge in venue projects in Asia - Pacific, driven primarily by China, there is more venue space available in this region than in North America. That being said, Europe retains its global lead on available venue capacities with 39% of the global market share, ahead of Asia - Pacific with 32% and North America with 20%.
